

PEACE OF MIND AT EVERY STAGE

Connected Life Safety Services (CLSS)

Honeywell

EFFICIENCY AT EVERY STAGE

Harness the power of digitization to transform your fire and life safety solutions. Honeywell Connected Life Safety Services is the first end-to-end system solution streamlining the way your facility is installed, tested, and serviced.

Connection and Efficiency from Your Mobile Device or Laptop.

Putting facility management where you need it to be.

*CLSS is more than just efficiency. It fills a **technology gap** in the Life Safety industry, which we can all appreciate.*

*CLSS equips system integrator with the most valuable information for your Life Safety system **before they get to your site.***

MINIMIZE DISRUPTION AND CUT DOWNTIME

Testing and maintenance of your fire system can cause disruption of business operations and impede productivity. CLSS provides a simplified cloud based solution that optimizes testing and maintenance efficiency and minimize business operation disruption to levels never seen before.

PROVE COMPLIANCE

With Honeywell CLSS, compliance reports generation is automated and eliminate all forms of human errors. Appropriately formatted compliance reports for regulators including Jaco or AHJ (Authority Having Jurisdiction) are easily accessible for download and distribution via mobile app and computer. Gone are the days of tracking paper files. CLSS reduce compliance audit preparation time, streamline compliance audit process and eliminate the risk of compliance corrective action. CLSS provides compliance at your fingertips.

REAL TIME VISIBILITY

CLSS site monitoring capabilities provide remote visibility of all connected sites for remote system diagnostics by experts via mobile app or computer anytime. CLSS provides the peace of mind that comes from ultimate protection of life and assets.

SYSTEM COMPLIANCE

With Honeywell CLSS, standard or customizable compliance reports are available to you anytime, anywhere with the click of a button. Device testing is taken to the next level, going beyond barcodes pencils and notepads to ensure that every device is test and accurate results recorded without human intervention.

BETTER PLANNING TOOLS AND REDUCED DOWNTIME

CLSS enables streamlined maintenance, providing technicians with the information needed to locate and fix issues before they result in before failure and, consequently, associated cost. Systems are maintained quickly with limited impact on your business operations.

HOLISTIC VIEW AND REAL TIME INFORMATION

CLSS provides visibility to view all your facilities to ensure sites are operating effectively. Cross-site connectivity provides insight into scheduled system testing, inspection reports and device inventory.

END-TO-END CYBERSECURITY

Honeywell is committed to proactively monitoring the cybersecurity landscape, ensuring data is safely stored and securely accessible to permitted system users.
