TC500 Commercial
Connected Thermostat

Honeywell

ELEGANCE AND PERFORMANCE

AS EASY TO USE AS IT IS TO INSTALL

With the TC500, businesses can have the style and intuitive control they want along with the advanced commercial features they need. The result is the ideal blend of comfort control and energy savings.

AT A GLANCE

- Ideal for retail, clinics, restaurants, hotels, schools, warehouses and other commercial businesses
- For up to 5-stage heating and 3-stage cooling AHU, RTU and heat pump systems
- Setup wizard cuts installation time
- Integrated energy-saving features
- Ideal comfort experience
- Meets commercial building codes
- Remote connectivity via mobile apps

USER BENEFITS

- Exceptional, intuitive user experience with multiple screens, color icons and radio buttons
- Premium modern appearance with high-resolution display
- Color touchscreen display with edge to edge glass
- Customizable Standby mode option for discreet appearance
- WiFi connectivity to cloud with mobile app for remote monitoring, control and scheduling
- Upgradeable to multi-site portfolio management system solution as desired
- 5-year warranty

CONTRACTOR BENEFITS

- Fully communicating design via WiFi, BACnet, Bluetooth, and Sylk™
- Provisions for remote sensors and building systems integration
- Multi-screen, intuitive design for simple configuration using the device or mobile app
- Quick multiple thermostat setup using saved configurations in the mobile app
- Multiple-level user types (Contractor, Advanced, Basic, and Visitor Users) for improved security and fewer callbacks
- Commercial-grade design for durability, temperature response and code compliance (BTL and California Title 24 coming soon)

MOBILE APPS
