L-Series with LED Indoor Selectable-Output Horns, Strobes, and Horn Strobes

System Sensor L-Series with LED audible visible notification products are rich with features guaranteed to cut installation times and maximize profits with lower current draw and modern aesthetics.

Features

- Updated modern aesthetics
- Small profile devices for Horns and Horn Strobes
- Plug-in design with minimal intrusion into the back box
- Tamper-resistant construction
- Digital Voltage Meter (DVM) diagnostic test points for Horn Strobes and Strobes
- Field-selectable candela settings on wall units: 15, 30, 75, 95, 110, 135, and 185
- Field-selectable candela settings on ceiling units: 15, 30, 75, 95, 115, 150, and 177
- Rotary switch for candela settings
- Rotary switch for tone and volume selections
- Mounting plate for all standard and compact wall units
- Mounting plate shorting spring checks wiring continuity before device installation
- Electrically compatible with legacy SpectrAlert, SpectrAlert Advance, and initial release Xenon L-series devices
- Synchronization through use of UL approved power supplies that support System Sensor Sync protocol or System Sensor MDL3 Sync Module
- Horns, Strobes and Horn Strobes listed for wall or ceiling use

Agency Listings

The System Sensor L-Series with LED offers the most versatile and easy-to-use line of horns, strobes, and horn strobes in the industry with lower current draws and modern aesthetics. With white and red plastic housings, standard and compact devices, and plain, FIRE, and FUEGO-printed devices, System Sensor L-Series with LED can meet virtually any application requirement.

The L-Series with LED line of horns, strobes, and horn strobes include a variety of features that increase their application versatility while simplifying installation. All devices feature plug-in designs with minimal intrusion into the back box, making installations fast and foolproof while virtually eliminating costly and time-consuming ground faults.

To further simplify installation and protect devices from construction damage, the L-Series with LED uses a universal mounting plate for all models with an onboard shorting spring, so installers can test wiring continuity before the device is installed. Installers can also easily adapt devices to suit a wide range of application requirements using field-selectable candela settings. Rotary switches select candela, horn tones, and volume.

L-Series Specifications

Architect/Engineer Specifications

General

L-Series standard horns, LED strobes, LED horn strobes, shall mount to a standard 2 x 4 x 17/8-inch back box, 4 x 4 x 1½-inch back box, 4-inch octagon back box, or double-gang back box. L-Series compact products shall mount to a single-gang 2 x 4 x 17/8-inch back box. A universal mounting plate shall be used for mounting ceiling and wall products for all standard models and a separate universal mounting plate shall be used for mounting wall compact models. The notification appliance circuit wiring shall terminate at the universal mounting plate. Indoor L-Series with LED products shall operate between 32 and 120 degrees Fahrenheit from a regulated DC power supply. Wall mount strobes, horn strobes shall have field-selectable candela settings including 15, 30, 75, 95, 110, 135, and 185. Ceiling mount strobes, horn strobes shall have field-selectable candela settings including 15, 30, 75, 95, 115, 150, and 177.

LED Strobe

The strobe shall be a System Sensor L-Series LED Model _____ listed to UL 1638 and UL 1971 and shall be approved for fire protective service. The strobe shall be wired as a primary-signaling notification appliance and comply with the Americans with Disabilities Act requirements for visible signaling appliances, flashing at 1 Hz over the strobe's entire operating voltage range. The strobe light shall consist of LEDs and associated lens system.

LED Horn Strobe Combination

The horn strobe shall be a System Sensor L-Series LED Model _____ listed to UL 1638, UL1971, and UL 464 and shall be approved for fire protective service. The horn strobe shall be wired as a primary-signaling notification appliance and comply with the Americans with Disabilities Act requirements for visible signaling appliances, flashing at 1 Hz over the strobe's entire operating voltage range. The strobe light shall consist of LED's and associated lens system. The horn shall have two audibility options and an option to switch between a temporal three pattern and a non-temporal (continuous) pattern. These options are set by a multiple position switch. The horn and horn strobe models shall operate on a coded or non-coded power supply.

Physical/Electrical Specifications

Standard Operating Temperature	32°F to 120°F (0°C to 49°C)
Humidity Range	10 to 93% non-condensing
Strobe Flash Rate	1 flash per second
Nominal Voltage	Regulated 24 DC
Operating Voltage Range²	16 to 33 V (24 V nominal)
Input Terminal Wire Gauge	12 to 18 AWG

UL/ULC Current Draw Data, Horn Tones, and Sound Output Data

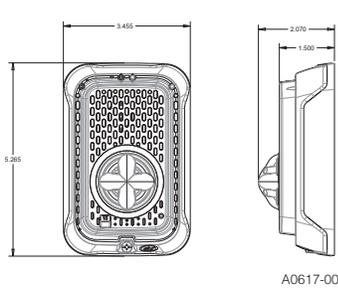

UL/ULC Maximum Strobe Current Draw (mA)

Notes:

- All -P models have a plain housing (no "FIRE" marking on cover).
- All -SP models have "FUEGO" marking on cover.
- All -ALERT models have "ALERT" marking on cover.
- All -B models have "FIRE/FEU" marking on cover for use in Canadian applications.
- Amber lenses are not for use in Canadian applications
- *Horn-only models are listed for wall or ceiling use.
- *Horn-only models ending in "A" are for use in Canadian applications
